Anthropology What Does It Mean Anthropology is the study of people throughout the world, their evolutionary history, how they behave, adapt to different environments, communicate and socialise with one another. The study of anthropology is concerned both with the biological features that make us human (such as physiology, genetic makeup, nutritional history and evolution) and with social aspects (such as language, culture, politics, family and religion). What is Anthropology? Anthropology is the comparative study of human societies in order to understand what it means to be human. Other disciplines, such as sociology for example, tend to ask people about themselves via interviews, focus groups and surveys. But anthropology suggests that most people cannot say why they live their life in a particular way. Anthropology and ethnography | Why We Post - UCL ... In each generation, the question of “What is Anthropology?” must be answered anew. In 2017, Tim Ingold’s Anthropology and/as Education provides a summation of a discipline that strives to reveal the conditions and potentials of human life:.
