Records ... With a GAMP 5 risk-based approach, the right amount of validation
testing on a system will depend on the impact that the system has on data
integrity, and ultimately, product (drug) quality. For example, a system used in
early stage R&D will have a relatively low impact on finished product quality, and
thus require less validation testing than a system used for product quality
control. Reducing the Cost of Computer Systems Validation Efforts ... • Chairman,
