fast, without using the sense of sight, and with all the available fingers, just like piano players do. It significantly improves typing speed and eliminates errors. Touch typing simply makes you more productive and it is a skill worth learning. Typing practice My suggestion: go to typing.com (free) and practice until you get to about 40wpm+ with 98% or better accuracy. Focus on accuracy only, the speed will come. Once you have done so (or if you already type 40wpm or more) use the method in this book as your main training strategy. Increase Your Typing Speed Tremendously (English Edition ...
